## Product Sales & Licensing Information

---

This pattern is copyrighted 2017 to Rebecca Page by [rebecca-page.com](http://rebecca-page.com).

Please feel free to make garments from this pattern to sell. If you do, we'd love you to include a credit to [rebecca-page.com](http://rebecca-page.com) as the pattern designer, but it's up to you.

The finished product may only be sold by crafters. It may not be mass produced. You can only sell the finished product; you cannot sell the pattern or these instructions.

Best of luck and happy sewing!

# Getting Started

---

## Need help? Have a question?

Join our Facebook Group at  
<https://www.facebook.com/groups/mummykinsandme/>

You can get help, ask questions, share your tips and shortcuts and share your creations! We're a friendly bunch and we love helping out and seeing what you've made. 😊

## Before you get started...

We love to offer a fun freebie and want to make sure you get the best results possible! So please read the full tips and tricks included here before getting started.

Make sure to use the appropriate medium for your project. If you'd like to iron your design onto your favorite Comfy Cowl Hoodie or Drawstring Backpack, be sure to use Heat Transfer Vinyl. If you're cutting fabric, be sure to use interfacing and always follow your machine's instructions for best practices.

This is in no way an all-inclusive guide to using cut files with your machine. Please do read the instruction manual for your cutting machine and use all their tips, tricks, advice and safety suggestions.

# Working with Cut Files

---

## File Types

We have included three to four file types for you to choose from. Please choose whichever you are more familiar with or works best with your cutting machine. For cut files of the smaller pieces for some of our patterns, like the Dolls House Quiet Book and Add-on, we do not include a PDF copy. All versions come with .SVG, .PNG, and .DXF.

You will start by downloading the files from your account. Open your software and choose the file type you'd like to work with.

## Pattern Cut Files

When working with cut files to cut small pattern pieces, it is imperative that you make sure the file is the correct size prior to cutting. We have included a one-inch square box offset in each file. You should be able to move the square off to the side, so it isn't cut with the rest of your file. For files that also have square pieces, please be sure to compare them to the cut chart in the original file instructions. We'd always prefer you double check than have something cut out that isn't useable!

## Other Cut Files

For all other cut files, you should resize to your project needs. Please do keep in mind the size of some of the features. Going very small may make it difficult to cut smaller fonts or finer details.

## Media

As mentioned earlier, it is very important to choose the correct media to for your cut. There is a huge selection to choose from and it can be overwhelming. Be sure to use the materials suggested by your machine for the type of project you are completing.

Enjoy! ♥

---

We would love to hear how you got on and see photos of your finished project!

Join us at our Facebook Group at [www.facebook.com/groups/mummykinsandme](https://www.facebook.com/groups/mummykinsandme) and show it off!
